TESTIMONIALS

Let's hear it from our client!

Our team was previously struggling with an outdated system and we are doing the manual entries through Microsoft ERP. Sanskar Technolab understands our requirements and has helped us with the ERPNext implementation, offering structured workflows and customized reports.

Uttam Agrawal

Managing Director, Jagdamba Textile

Amazing Work, guys! Loved the result. We wanted to streamline the construction industry, and with the development of portals and applications, this is one step forward for the same. Also, the integration with crucial third-party apps is helpful and easy to use for the admin and suppliers.

Arjun Pachani

Founder, Migoo Equipment

Our team is struggling with the 20-year-old system on Oracle which is affecting their productivity and overall business operations. We want to migrate to a new ERP system and that's when Sanskar Technolab suggested opting for ERPNext as it is quite easy to use, cost-effective, and open-source.

Yogeshkumar Agrawal

Chairman, Ambica Polymers

Advantis Quartz is the manufacturer of raw materials for quarries and their engineering. We reached out to the team at Sanskar Technolab and they have helped us in implementing almost every ERPNext module such as accounting, purchase, inventory, manufacturing, sales, HR & payroll, and asset management.

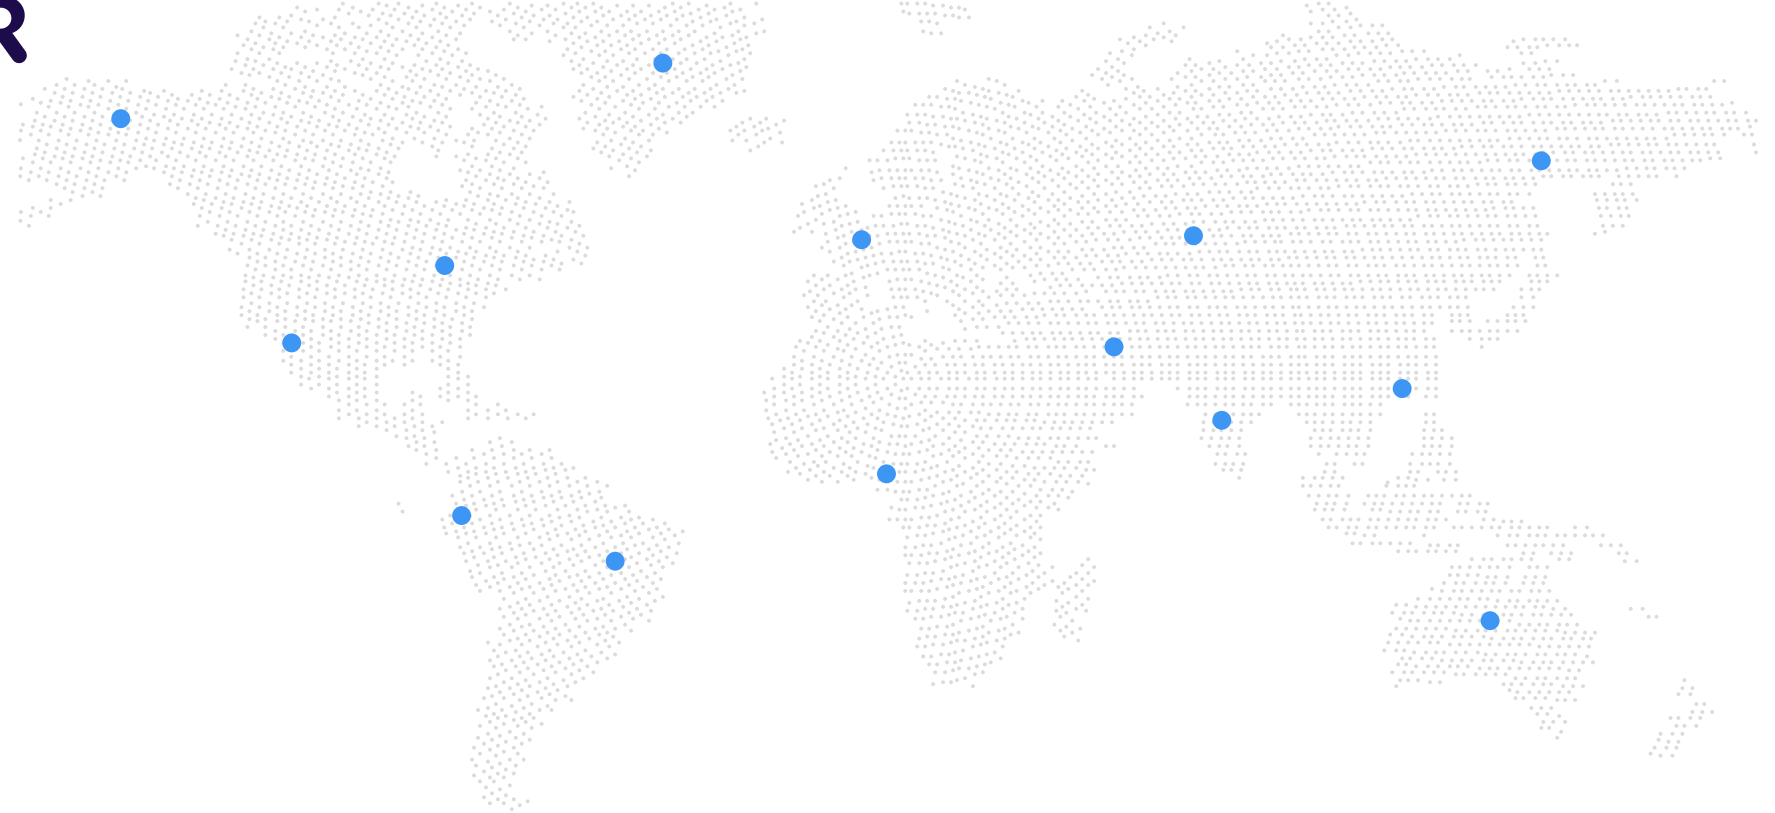

Lokesh Modi

Accounts Head, Advantis Quartz
